10A - Ahmed Taher
10B - Zaina Saeed

PHYSICS
10B - Hussain Saeed
10A - Ahmed Taher

BIOLOGY
10B - Zainab Abdullah

ARABIC
10A - Zahraa Ebrahim Ali Abdulla | 10B - Hassan Mohammed Shehab

ENGLISH

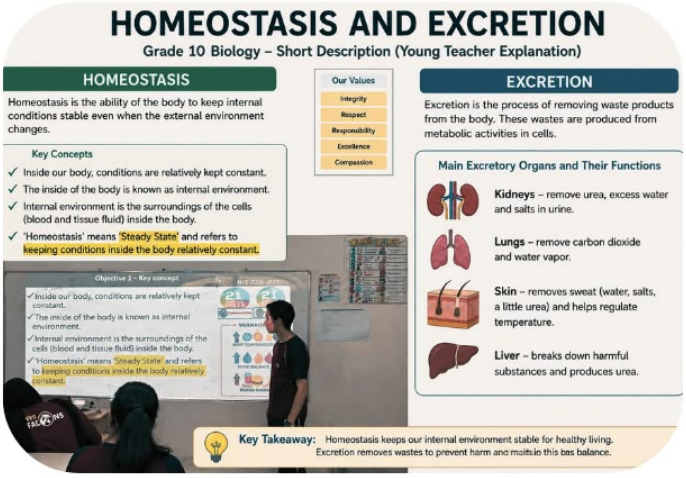
Debate Showcase

Grade 10 students took part in an English debate showcase. They presented clear arguments, challenged opposing viewpoints and practised rebuttals. The discussion gave them a chance to think critically, speak with confidence and listen carefully to one another.

Spelling Bee

Grade 10 students are taking part in a spelling bee to test their spelling, vocabulary and language skills. It gives them a chance to challenge themselves, learn new words and grow more confident. The activity brings together friendly competition and teamwork.

BIOLOGY



MATHS

From Numbers to New Ideas!

Grade 10 students explored what it takes to open and run a business. They used maths to plan budgets, estimate costs and set prices for their business ideas. The project encouraged them to solve problems, make decisions and think like young entrepreneurs. It also showed how useful maths can be in everyday business.

BUSINESS PROJECT

Bahrain's Trade Journey

Grade 10A Business students are exploring Bahrain's journey from traditional souq trading to modern supply chains. Their project looks at pearls, merchants, transport, ports and e-commerce, and how Bahrain's location and culture have shaped trade and business today.

Events & News

Parents' Open Day

THURSDAY, 12 NOVEMBER 2026

Thank you to all the families who joined us. Open Day was a great success and gave parents and teachers time to discuss students' progress and next steps. When school and home work as a team, students get the consistent support they need to learn with confidence.

Parents' Assemblies

COMING IN THE NEXT FEW WEEKS

All parents are warmly invited to our upcoming assemblies. Students have been preparing and are excited to share their work with you. We look forward to seeing you there!

Our classroom

The desks are quiet now. Give us five minutes!

The neat desks, colourful boards and tidy lockers set the scene. Then we walk in! A question sparks a debate, a sketch turns into a project idea, and a row of desks becomes a team. Our ideas, laughter and teamwork are what bring this classroom to life.
