GRADE 8

WEEK 11

THIS WEEK AT NVS

Mathematics: Students engaged in mathematical challenge questions to develop their problem-solving skills, logical reasoning, and critical-thinking abilities. They also practiced evaluating algebraic expressions by substituting given values for variables, strengthening their understanding of algebraic concepts and their application.

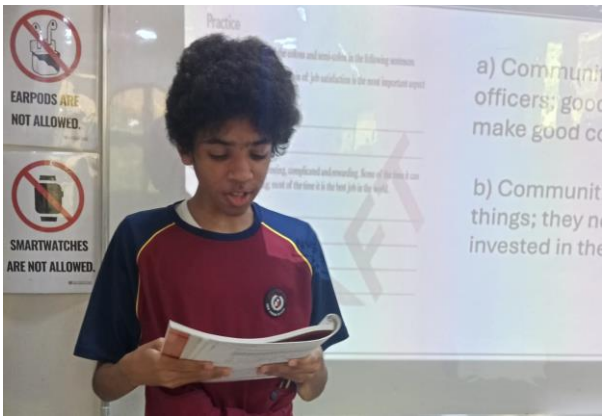
Science: Students worked together to create models illustrating photosynthesis. Through this hands-on group activity, they explored how plants use sunlight, water and carbon dioxide to make their food, while developing teamwork and creativity.

English: Students confidently took on the role of little teachers, explaining how to use colons and semicolons with clear examples. Through peer teaching, they strengthened their understanding of punctuation while developing communication, presentation, leadership and confidence.

Arabic: Students took part in a diabetes awareness activity. They learned about the importance of health awareness and explored ways to help prevent diabetes through healthy habits.

STUDENT ACHIEVEMENTS:

Little teachers in action! Students explored colons and semicolons through examples and peer teaching.

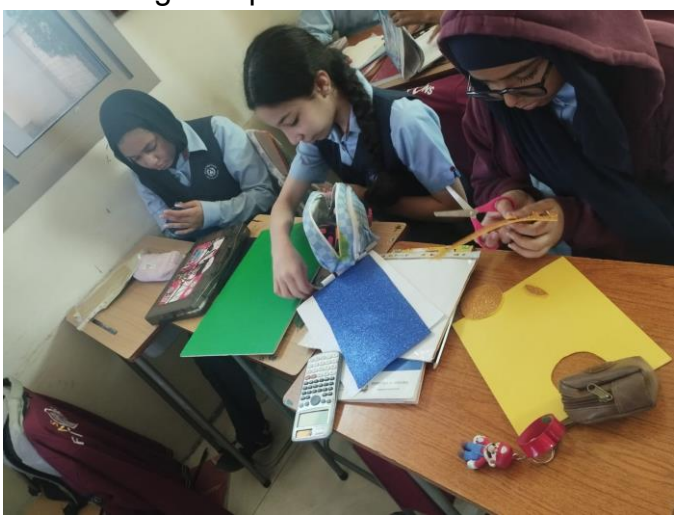


STAR OF THE WEEK

English	• Sayed Husssian 8A • Mariyam Ali 8B
Mathematics	• Mariya Ali Sabah 8A • Zainab Basheer 8B
Science	• Zainab Hassan 8B • Zainab Basheer 8B
Arabic	• Zainab Hassan 8B

Raising awareness about diabetes and the importance of healthy choices.

Creating a photosynthesis model together and discovering how plants make their food.



Approved by: Dr. Mahmoud Ezzat

Supervised by: Mariam Gulraiz

Facilitated by: Nabeel Uddin

Prepared by: Zain Ayman
