Week 5

THE FACE & MIND BEHIND OUR NEWSLETTER

Hi everyone! I'm Zainab from Grade 10B.

I'm your newsletter editor, a drawing enthusiast and someone who loves trying new hobbies and activities! I'm here to share our classroom discoveries, little wins and moments worth celebrating. School life has plenty of stories - let's bring ours to life. Happy reading, Grade 10!

THIS WEEK AT NVS

ENGLISH

We explored *Oliver Twist* and followed the story of an orphan facing some big challenges.

MATHEMATICS

We practised algebra. It can be tricky at first, but equations get easier as you keep going!

SCIENCE

Chemistry explored metal reactions; Physics focused on power; Biology included a hands-on yeast and sugar fermentation experiment.

COMMERCE

In Business, Accounting and Economics, we connected business decisions, money and markets while revising key ideas and practising questions for our midterms.

BIOLOGY IN ACTION: FERMENTATION

We mixed yeast solutions with and without sugar, then compared bubbles and foam. Small bubbles, big learning!

STARS OF THE WEEK

★ **10A - Layan**

★ **10B - Mostafa Ahmed Maher**

SCHOOL & FAMILY

Parent-teacher meeting: Celebrating progress and planning next steps.

MIDTERMS: YOU HAVE GOT THIS!

Midterms begin 4 October. Practise a little each day, ask for help and give it your best! Check your exam timetable.
