

WEEKLY NEWSLETTER

GRADE 11 - WEEK 8

PHYSICS CORNER

Grade 11 science students engaged in collaborative team activities to explore and better understand complex physics concepts. Through teamwork and discussion, they strengthened their critical thinking, communication, and problem-solving skills while deepening their understanding of scientific principles.

DEBATE IN ACTION

Grade 11 students actively participated in debate practice sessions in preparation for their term project. Through engaging discussions and thoughtful arguments, students developed their public speaking, critical thinking, and communication skills. The sessions encouraged them to explore different perspectives, support their ideas with evidence, and build confidence in expressing their opinions.

SCIENCE IN ACTION

Grade 11 students participated in an engaging Science Quiz, testing their knowledge, strengthening key concepts, and showcasing their critical thinking and problem-solving skills.

RAISING AWARENESS

Grade 11 students attended a breast cancer awareness presentation delivered by Grade 12, promoting awareness, education, and the importance of early detection.

INJAZ IN ACTION

Grade 11 students attended an INJAZ orientation workshop, introducing them to the program's objectives and providing valuable insights into entrepreneurship, teamwork, and future career opportunities.
