BREAKING NEWS

WHATS HAPPENING?

Peer teaching in a Grade 12 physics lesson allows students to explain concepts and solve problems together. It encourages participation, strengthens understanding, and helps students learn from one another, while the teacher guides and supports the discussion.

SCIENCE SUBJECTS

Grade 12 Chemistry students have successfully completed the lessons on Energetics and Entropy. The sessions focused on understanding energy changes in chemical reactions, enthalpy changes, and the concept of entropy. Students explored key concepts, applied relevant principles, and strengthened their understanding through problem-solving activities and practice questions. These lessons helped build a strong foundation for further learning and examination preparation.

ARABIC

Students collaboratively researched classical Arabic literature and famous poets, including Imru' al-Qais and Antarah ibn Shaddad. They prepared creative booklets, brochures, and poetry excerpts highlighting Souq Ukaz and the Mu'allaqat. Students worked together to arrange pictures, research materials, and illustrations on the classroom display board. The project enhanced teamwork, creativity, and appreciation of Arabic literary heritage.

UPCOMING DATES, EVENTS & ACHEIVMENTS

parents are invited for the IGCSE orentation discussion. Grade 12 students conducted a breast cancer event raising awarness to students and teachers. The events was successful and students had fun esspecially in the quiz sector of the presentation.
