WEEK

5

THIS WEEK AT NVS

Mathematics: Students strengthened their number skills by practising HCF and LCM, integer operations, roots, and indices, and applying them to solve problems.

Science: Students explored the periodic table, learned the difference between atomic number and atomic mass, and studied the atomic structures of elements.

English: Students explored descriptive vocabulary to create different moods and atmospheres in a story. Using pictures for inspiration, they wrote setting paragraphs and considered how a setting can influence a character's feelings.

Arabic: Through reading and analyzing the poem, students were developing their understanding of literary devices and figures of speech, enhancing their critical thinking and language skills.

STAR OF THE WEEK

English	- Yas Mahmood 8A - Rayyan Abdulredha 8C
Mathematics	- Sayed Husain 8A - Fatima Qasim 8B
Science	- Hassan Mohamed 8A - Sayed Hussain 8B - Zain Ayman 8C
Arabic	Mariya Ali Sabah 8A

STUDENT ACHIEVEMENTS:

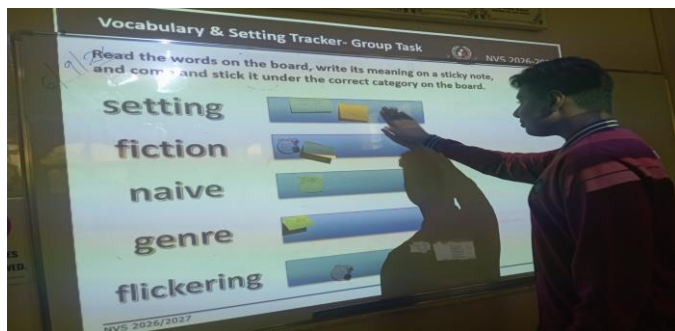

Arabic language skills boost achieved as students participate in engaging language activity during break, fostering communication and cultural exchange."

UPCOMING EVENTS & IMPORTANT DATES

- First Mid-term Exams start on Monday 5th October 2026.

Students explored how descriptive vocabulary creates mood and atmosphere, then used new words to write vivid setting paragraphs showing how a place can influence characters' feelings.

Students demonstrated leadership by staying focused, taking responsibility for their learning, and confidently working through IXL questions independently.

PARENT REMINDERS

- Assigned IXL skills and homework should be completed regularly to support learning.

Approved by: Dr. Mehmoud Ezzat

Supervised by: Mariam Gulraiz

Facilitated by: Nabeel Uddin
